MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Reduction in Table of Organization and Ceiling of Office of Current Intelligence.

1. This memorandum contains recommendations submitted for **DD/I** approval. Such recommendations are contained in paragraph 6.

2. Tab A, attached, requests approval to transfer two ceiling slots from the Office of Current Intelligence to the Office of Research and Reports (thereby reducing the **OCI** ceiling from [redacted] including five military, to [redacted] including five military); to reduce the **OCI T/O** (now [redacted] including five military) to the proposed ceiling, and to reorganize certain portions of **OCI**. Tab A includes the proposed **T/O**, organization chart, and a list of positions to be deleted. The Management Staff has reviewed statements of missions and functions, which are available in **OCI**.

3. Objectives of the request are: (a) to improve **DD/I** current economic intelligence production by eliminating the **OCI Economic Division**, transferring two ceiling slots and the production responsibility to **DDA**, while retaining coordinating and monitoring functions in an **OCI Economic Advisory Staff** (See memorandum of understanding between **DD/I** and **DDA** in Annex E of Tab A); (b) to improve production of current intelligence on the U.S.S.R. and its satellites by consolidating in a **Sino-Soviet Bloc Area** all coverage of Communist-controlled countries; (c) to provide necessary emphasis upon intelligence pertaining to France, Germany and Latin America by realigning **Western Divisions**; (d) to install consistency of organizational nomenclature in the **DD/I** Area by substituting **Areas** for present **OCI** senior staffs; (e) to eliminate over-organization in Support Staff by abolishing **Dissemination and Control Branch**; (f) to promote an accelerated special intelligence security education program, consistent with U.S.C.I.B. policies, by adding to **Security Officers** to **Special Intelligence Security Branch**; (g) to improve intelligence output by addition of an editorial position, and (h) to establish a work burden **T/O**, including **T/O** slots for military personnel.

4. **OCI** has agreed to the revised organization chart contained in Tab B. This chart omits staffs which are actually parts of major components and need not be depicted in an organization chart, and it portrays **Production Staff** in its true staff capacity vis a vis **OCI** line components.
